A SITUATION REPORT ON OUR ACQUISITION OF ADVANCED
TECHNOLOGY AND INTERACTION WITH ALIEN CULTURES

by O.H. KRILL

Well, as if this weren't enough, let's examine the basic allegations that were raised by Gary Stollman when he held an empty BB gun to David Horowitz on KNBC Channel 4, Los Angeles, in October, 1987. Gary clearly thought that he was alone in his knowledge, and evidently turned to desperation to have the public become aware of what he knew. For the sake of brevity, I will simply summarize the allegations, and make comments where I wish to do so:

- o His physical father is in fact a clone created by the CIA and alien forces.
- o Cloning is a part of a plot to overthrow the U.S government.
- o The CIA maintains mental-retraining hospitals.
- o Phones were turned off at Rohlman Psychiatric Hospital in Cincinnati for 48 hours after his arrival.
- o A former CIA official had an interview on KPFK radio in which he told a college audience that the CIA has towed barges across New York Harbor that were disease-ridden.
- o The CIA may have created the AIDS virus to wipe out the gay population. Comment: Hmmm, where have we heard THAT before?
- o The CIA assassinated John F. Kennedy and the 22 material witnesses who died with two years. Comment: Hmmm, I have heard that as well.
- o He demands that the Air Force release all information on UFOs.
- o He demands that the information about Hanger 18 at Wright-Patterson [AFB] be released.
- o He relates that he spoke to a girl at Florida Junior College who told him that seven of her friends had been "replaced."
- o The CIA doesn't trust people on computers.
- o Individuals at the Optimist Boys School in Pasadena were recruited by others and given false IDs and

- birth certificates.
- o There is a secret group led by the President's own staff.
 - o There are beings around with the power to teleport instantly and do the same to others; who can read and control minds, and transform matter into other forms and create it at will.
 - o He asks for a congressional investigation and federal protection.
 - o He states that he cannot harm anyone with an empty BB gun.

Well, what do you think? [Name deleted in original, replaced with the word "MUFON"] contacted Mr. Stollman's lawyer in December, 1987, and told him that some of what Gary had said may be true. His lawyer promptly made himself scarce.

For some of you who keep an eye on the news, the President (Reagan) has said some mighty interesting things in some speeches of his:

To the students of Fallston High School in Fallston, Maryland, on December 4, 1985, he said:

"I couldn't but -- one point in our discussions with General Secretary Gorbachev -- when you stop to think that we're all God's children, wherever we may live in the world, I couldn't help but say to him, just think how easy his task and mine might be in these meetings that we held if suddenly there was a threat to this world from some other species from another planet outside in the universe. We'd forget all the little local differences that we have between our countries and we would find out once and for all that we really are all human beings on this earth together.

"Well, I don't suppose we can wait for some alien race to come down and threaten us...."

To the 42nd General Assembly of the United Nations, September 21, 1987:

"In our obsession with antagonisms of the moment, we often forget how much unites all the members of humanity. Perhaps we need some outside universal threat to make us recognize this common bond. I occasionally think how quickly our differences worldwide would vanish if we were facing an alien threat from outside this world. And yet, I ask you, is not an alien force already among us? What could be more alien to the universal aspirations of our peoples than war and the threat of war?"

Comment: Apparently Mr. Reagan doesn't realize that war is NOT alien to the aspirations of peace -- it's always been here.

Does Mr. Reagan know something that we know but the general public doesn't know about what is happening and what will happen within the next five years?

General Types of Entities

The Greys are known to be of three types:

- o Grey 1: 3.5 feet tall. Large head. Large slanted eyes. Worship Technology and don't care about us. Type popularized in "Communion" by Strieber.
- o Grey 2: Same general appearance, although has a different finger arrangement and a slightly different face. More sophisticated than Grey 1. They possess a degree of common sense and are somewhat passive. It is not known if they require the secretions needed by Grey 1.
- o Grey 3: Same basic type. Lips thinner. Subservient to other two types.

Other entities known to frequent this planet:

- o Blonds/Swedes/Nordics: Known by any of these names. Similar to us. Blond hair, blue eyes. Will not break law of non-interference to help us. Would only intervene if the Greys' activity would affect other parts of the universe.
- o Interdimensional: Entities that can assume a variety of shapes. Basically of a peaceful nature.
- o Short Humanoids: 1.5 to 2.5 feet tall, skin bluish in color. Seen quite frequently in Mexico near Chihuahua.
- o Hairy Dwarfs: 4 feet tall. Weigh about 35 pounds. Hairy. Neutral. Respect intelligent life.
- o Very Tall Race: Look like us but 7-8 feet tall. United with the Swedes.

- o Nordic Clones: Appear similar to us but with grey tinge to their skin. These are drones created by the Greys. Child-like mentality.
- o Men-In-Black (MIB): Oriental or olive-skinned. Eyes sensitive to light. Eyes have vertical pupils. Very pale skin in some types. Do not conform easily to our social patterns. Usually wear black clothes, drive black cars, and wear sunglasses. In groups they all dress alike. Sometimes time-disoriented. they cannot handle a psychological "curve-ball" or interruption to their plan. Often intimidate UFO witnesses and impersonate government officials. Equivalent of our CIA. From another galaxy.

Although there are some 40 or more known types of aliens visiting our world at the present time, these are the most commonly seen types.

Sanchez/Stevens

Section 1: Regression session, Filiberto Cardenas (subject)
Event date: 3 January 1979 UFO CEIII
During the regression session(s) the following
information came forth:

1. Subject was taken to one of three pyramid bases. Two pyramid bases are under ocean, one on land. Subject was taken to base between Berin and Santiago of the coast of Chile. Other underwater base is in the Atlantic in an unspecified location. The base was entered through an underwater tunnel. The aliens stated that they had been there 36 months at that time.
2. Aliens told the subject that there were six (6) other individuals whom the aliens had contacted.
3. Subject stated that the aliens voiced that they were eventually going to make themselves known to the world.
4. Aliens stated that they control the Chinese, and they have provided the Chinese with a device that can "paralyze cities and towns completely."
5. Aliens stated that the device will cause a change that "is going to be something for which the world cannot wait." The Chinese are to provoke certain unspecified changes, and that in those changes, "people who are negative will disappear."
6. Subject remembers seeing (future) scenes of people running disoriented along roads, and that there is a disaster coming.
7. Details of underwater tunnel described as walls of "firmed water," not rock. The ship evidently generated a force field which repelled the water around it.
8. Devices were supposedly installed in subject's head by aliens. Subsequent x-rays revealed nothing.

(Session 3)

1. First contact with these groups of aliens began 4,000 years ago.
2. It has been thousands of years since this group last descended to earth.
3. If progress on earth does not continue, aliens will use more forceful demonstrations to get their point across that we must have peace and progress.
4. Subject was interrogated for 15 days after the events by US security and intelligence services.
5. Information from aliens had also to do with "an atrocity in the plans certain forces on earth had planned."
6. Subject was seven years old when contact with aliens first occurred.
7. Aliens have ability to dematerialize their craft.
8. Aliens stated that we should beware of other alien groups who will present themselves in a good light but if they pursue "bad objectives against us they could do two things. They could destroy this planet with the same arms that this planet has, or on the contrary, transport away all our arms in one operation, which would take no more than 20 minutes of our time. They can be visible or not, whatever they choose."
8. [sic] Treatise references 81 other crossbreeds from (negative) aliens who have performed duties on earth. Half alien-half earthling = Crossbreed
9. Aliens spoke of great portions of land and whole cities will [sic] disappear. Mexico City and major cities in California.

History and Operations -- Operation Trojan Horse

The amusing little mystery of flying saucers slowly evolves into a complicated series of coincidences and paradoxes as we plunge deeper and deeper into the data, excluding nothing, and considering everything as objectively as possible.

Our skies have been filled with "Trojan Horses" throughout history, and like the original Trojan Horse, the SEEM to conceal hostile intent.

Several facts are now apparent:

- o The objects have always chosen to operate in a clandestine manner, furtively choosing the hours of darkness for their enigmatic activities over thinly-populated areas, where the possibility of being detected is slight.
- o The hostility factor is further supported by the fact that the objects chose, most often, to appear in forms which we can readily accept and explain to our own satisfaction -- ranging from dirigibles to meteors and conventional-appearing airplanes.
- o The objects of unusual configuration, undoubtedly

constituting a deceptive minority of all the
paraphysical objects flitting about in our atmosphere.

In other words, flying saucers are not at all what we have hoped they were. They are a part of something else. John A. Keel called that something else "Operation Trojan Horse."

When one really digs into UFO literature, it readily becomes clear that the ultraterrestrials deliberately conveyed whatever impression that would meet the available frame of reference for that time.

Until 1848, the religious frame of reference was constantly used by the phenomenon. As man's technology improved many of our old beliefs were discarded and the "phenomenon" was obliged to update its manifestations and establish new frames of reference. No more objects were seen in 1947 than had been seen in 1847. We were simply seeing them in a new way. A new game was being played with us.

A new game has emerged: the artifact or hardware game. The phenomenon has always obliged us by planting false evidence all over the landscape.

UFO cultists trapped themselves into a hopeless situation almost from the outset. The apparent purpose of most of the landings seems to have been to advance belief in the frame of reference, not to provide absolute proof that the frame of reference is authentic.

Physical Evidence

All kinds of junk have fallen out of the sky throughout recorded history. Ivan T. Sanderson has in his files extensive lists that go back to Roman times. Ridiculous things such as stone pillars and heavy metal wheels have come crashing out of the blue, and there are countless cases of ice blocks, some weighing hundreds of pounds, dropping all over this planet. The flying saucers have been spewing all kinds of trash all over the landscape. In nearly every instance, these materials always prove to be ordinary earthly substances like magnesium, aluminum, chromium, and even plain old tin. Each of these incidents give the skeptics new ammunition.

Mysterious hollow spheres have also been dropping out of the sky all over the world. Three such spheres were found in the Australian desert in 1963. They were about 14 inches in diameter and had a shiny polished surface. Efforts to open the spheres failed, and they were turned over to the USAF. Other metal spheres have dropped out of the sky in Mexico (1967) and Conway, Arkansas (1967). The Mexican steel ball was identified as titanium, the one in Arkansas steel.

Smaller colored spheres were found scattered over the French countryside in 1966-67, as if it had been raining balls there. Where is all this stuff coming from? The same place as the stone pillars and blocks of ice. Innumerable cases of contact and landings have been flushed down the ufological drain because of

the deliberate "negative factors." Sincere witnesses have actually been ruined because the amateur UFO investigators have accused them of being liars and worse.

Another fascinating game which the ufonauts play with a vengeance is the "repair" gambit. Beginning in 1897, there has been an endless stream of stories and reports, many from reliable witnesses, on how they encountered a grounded UFO and observed the occupants making repairs of some kind. The basic details in all these stories are so similar that it seems as if the ufonauts are following a carefully rehearsed procedure.

Generally speaking, there are three (3) types of beings observed in relation to UFOs:

- o Normal-looking people, including females.
- o Oriental, dark-skinned beings.
- o Unidentifiable creatures, who have made a real effort to hide from witnesses.

Oddly enough, when all the reports and the data is in, the scope of the phenomenon and the overwhelming quantity of reports negates its validity. An analysis of cases indicates that flying saucers are not, in most cases, stable machines requiring fuel, maintenance, and logistical support. Most of them are, in all probability, transmutations of energy from other dimensions and do not exist in the same way that this paper exists.

The UFO phenomenon seems to be largely subjective: that is, specific kinds of people become involved and are actually manipulated by the phenomenon in the same way that it manipulates matter. These subjective experiences are far more important to our study than the "random" superficial sightings. We are obliged to forget about the sightings and concentrate on the claims and experiences of the contactees.

Thousands of UFO photos have been taken since 1882. There's just one problem. With very few exceptions, no two UFO photos are alike. The sightings force two unacceptable answers upon us:

- o All the witnesses were mistaken or lying.
- o Some tremendous unknown civilization is exerting an all-out effort to manufacture thousands of different types of UFOs and is sending them all to our planet.

The governments of the world overtly have maintained variations of the first proposal. UFO enthusiasts accept the second. There is a third proposal which merits some attention: some "hard" objects definitely exist as temporary materializations from other dimensions. They leave indentations in the ground when they land. Witnesses have touched them and even been inside them. These "hard" objects may be decoys to cover the multitudinous activities of the "soft" objects. The "soft" objects hold one of the keys of the mystery. There are countless sightings of objects which changed size and shape in front of witnesses who often get the impression that it was alive, that it was not behaving like a mechanical object at all.

There is no question at all that there are intelligences that can manipulate or materialize any kind of object into our dimension. Let's take a look, for a second, at the electromagnetic spectrum. As you know, our visual spectrum makes up a small

portion of the whole. Look at what's involved with UFOs:

| | | |
|-------------|-----------------|----------|
| Ultraviolet | | |
| Blue | UFO ENTRY FIELD | _____ |
| Cyan | | _____ |
| Green | | Visible |
| Yellow | | |
| Red | | Spectrum |
| Magenta | | _____ |
| Infra-red | UFO DEPARTURE | |
| Heat | FIELD | |
| Radio | | |

If you will relate this to cases that you are familiar with, as far as appearance, spectrum shift when in flight, etc., you will see the applicability of the above diagram.

When UFO stabilize in our dimension they radiate energy on all frequencies and become glowing white. Radical maneuvers require a frequency alteration, which produces color changes. It is interesting to note that in Blue Book Report #14, they replaced the phrase "Electromagnetic Phenomenon" with the word "Unknown" in a majority of those cases. Why? There is no doubt that again, a situation exists where we have multiple realities within the UFO realm as well. It is clear that we are not dealing with random ET visitors. It has an extreme element of intention to do with all of it. Mutilations started in April, 1897, with the abduction of Alexander Hamilton's calf, witnessed by several people. That is one of the constants that has been with us that has not changed frame of reference. How many people give thought to the three dark-skinned wise men who appeared before the birth of Jesus, spread the reality of the happening, and disappeared again. All the dark-skinned men in threes. MIB. It makes you wonder. Hmmm.

Charting the Enigma

Well, here we are again. Taking a sample of 33% of 10,000 or so cases, or about 3,330 cases, we find that 730 are so-called Type I, a low-level object observed and reported by reliable witnesses. It was found that 2,600 were Type II, high-altitude objects performing in a controlled manner and distinct from normal aircraft and natural phenomena. The time of the sightings depends on where you are. If you are in a rural area, sightings conveniently begin after 10 p.m. A populated area would have them between 2 a.m. and 4 a.m. For some reason, in many "flaps," Wednesday had about 20.5% of the sightings. Hmmm.

Now, if the UFO phenomenon (and I dislike that word) had a purely psychic basis then I would think there would be more sightings on a Saturday, when people are statistically out and about than on Wednesday. There are notable exceptions to everything of course, one of which was the "flap" of August 16, 1966, which was on a Tuesday.

Reports seem to cluster within political boundaries of

states, as if there were a methodical exploration of states from border to border. If the UFO were a natural occurrence, one would expect otherwise.

Thousands of sightings can be fitted into the "great circle" route, and often the dates are staggered so that it appears that the phenomenon moves systematically from point to point.

Every state in the United States has from two to ten "windows." These are areas where UFOs appear repeatedly year after year. The objects will appear in these places and pursue courses confined to sectors with a radius of about 200 miles. The great circle from Canada (not to be confused with the traditional Great Circle) in the northwest through the central states and back into northeast Canada is a major window. Hundreds of smaller windows lie within that circle. Another major window is centered in the Gulf of Mexico and encompasses much of Mexico, Texas and the Southwest.

As mentioned previously, many windows center directly over area of magnetic deviation.

UFOs seem to congregate about the highest available hills in these window areas. They become visible in these centers and then radiate outward, traveling sometimes 100-200 miles before disappearing again.

Among the great heaps of neglected and ignored UFO data, we find hundreds of "minipeople" accounts. These are very rarely published anywhere because they tend to be so unbelievable. Most of them are identical to the fairy and gnome stories of yesteryear. Witnesses to these events can experience conjunctivitis, akinesia (paralysis), amnesia, and the other effects often noted by witnesses to more conventional events. One notable event is one that occurred in Seattle, Washington, in the latter part of August, 1965. A woman awoke around 2 a.m. and discovered she could not move a muscle or make a sound. Her window was open, and suddenly a tiny, football-sized dull-grey object floated through the window and hovered over the carpet near her bed. Three legs lowered from the object and it settled to the floor. A small ramp extended from it and five or six tiny people clambered out and seemed to work on some kind of repairs on the object. They wore tight-fitting clothing. When they were finished, they got in and the object took off and sailed out the window. At that point, she was able to move. The case was investigated by J. Russell Jenkins of Seattle.

You can readily see why almost none of these kinds of stories ever appear in print, except in occult-oriented literature. Nevertheless, if we hope to assess the true UFO situation, we must examine all these stories. We can learn nothing by considering only those incidents which are emotionally and intellectually acceptable to us.

TIME is one of the most important aspects of the UFO thing. It plays a strange but significant role. Part of the answer may not lie in the stars but in the clock ticking on your fireplace.

Our world exists in three dimensions. We can move in many directions within these dimensions. Space does not exist except when we make it exist. To us, the distance between atoms in our matter is so minute that it can only be calculated with hypothetical measurements. Yet, if we lived on an atom, and our size was relative to its size, the distance to the next atom would seem awesome.

There is another man-made measurement called time. Unlike the other three dimensions, time has us seemingly trapped. Time becomes very real to us, and it appears that we couldn't live without it. Yet time doesn't really exist at all. This moment exists to us. Does this mean the same moment is being shared by other planets?

The UFO phenomenon does seem to be controlled. It does follow intelligent patterns. If the objects themselves are manifestations of higher energies, then something has to manipulate those energies somehow and reduce them to the visible frequencies. Not only do they enter the visible frequencies, but they take forms which seem physical and real to us, and they carry out actions which seem to be intelligent.

Thus we arrive at the source. The source has to be a form of intelligent energy operating at the highest possible point of the frequency spectrum. If such an energy exists at all, it might permeate the universe and maintain equal control of each component part. Because of its very high frequency, so high that the energy particles are virtually standing still, the source has no need to replenish itself in any way that would be acceptable to our environmental sciences. It could actually create and destroy matter by manipulating the lower energies. It would be timeless, because it exists beyond all time fields. It would be infinite because it is not confined by three-dimensional "space."

Children. Children figure neatly into this, and they always have. The child's mind, especially before the so-called age of reason when the logic circuits begin to form, is a clear instrument, open and uninfluenced by opinions and conclusions. This is an important point in the UFO mystery.

Perhaps if we were in a pure energy state, each particle of energy would itself serve as a synapse, and information could be stored by a slight alteration in frequency. All the memory fragments of a rose, for example, would be recorded at one frequency, and the whole energy form could tune into that memory by adjusting frequencies, as we might adjust a radio receiver. In other words, no complex circuitry would be required. No body would be necessary. The energy patterns would not need material form. It would permeate the entire universe. It could surround you completely at this very moment and be aware of all the feeble impulses of low energy passing through your brain. If it so desired, it could control those pulses and thus control your thoughts. Man has always been aware of this intelligent energy or force. He has always worshipped it.

Our first conclusion is that the UFOs originate from beyond our own time frame or time cycle. Our second conclusion is that the source has total foreknowledge of human events and even of individual lives. Since time and space are not absolutes, these two conclusions are compatible.

It is that all human events occur simultaneously when viewed by a greater intelligence. If a greater intelligence wants to communicate with a lower form, all kinds of problems are presented. The communication must be conducted in a manner which will be meaningful and understandable to the lower life form. An acceptable frame of reference must be found and utilized.

UFO phenomenon, especially the "soft" ones, are frequently reflective; that is, the observed manifestations seem to be deliberately tailored and adjusted to the individual beliefs and attitudes of the witnesses. Contactees are given information which, in most cases, conforms to their beliefs. UFO researchers who concentrate on one particular aspect or theory find themselves inundated with seemingly reliable reports which seem to substantiate that theory.

John Keel's extensive experiences with this reflective factor led him to carry out weird experiments which confirmed that a large part of the reported data is engineered and deliberately false. The witnesses are not the perpetrators, but merely the victims.

The apparent purpose of all this false data is multifold. Much of it is meant to create confusion and diversion. Some of it has served to support certain beliefs which were erroneous but which would serve as stepping-stones to the higher, more complex truth. Whole generations have come and gone, happily believing in the false data, unaware that they were mere links in the chain.

If it were all understood too soon, we might crumble under the weight of the truth. This earth is covered with windows into those other unseen worlds. If we had the instruments to detect them, we would find that these windows are the focal points for super high-frequency waves -- the "rays" of ancient lore. These rays might come from Orion or the Pleiades as the ancients claimed, or they might be part of the great force that emanates throughout the universe. The UFOs have given us the evidence that such rays exist. Now, slowly, we are being told why.

It is also apparent that some entities are having a good laugh at our expense. As mentioned before, literature indicates that the phenomenon carefully cultivated the religious frame of reference in early times, just as the modern manifestations have carefully supported the extraterrestrial frame of reference.

The Devil's emissaries of yesteryear have been replaced by the mysterious "men in black." A major, but little-explored, aspect of the UFO phenomenon is therefore theological and philosophical rather than purely scientific. The UFO problem can

never be untangled by physicists and scientists unless they are men who also are schooled in the other disciplines.

The earth was occupied before man arrived or was created. That's an important point to consider. The original occupants were parapsychical and possessed the power of transmutation of matter. Man was the interloper. The inevitable conflict arose between physical man and the parapsychical owners of the planet. Man accepted the interpretation that this conflict raged between his creator and the Devil. The religious viewpoint has always been that the Devil has been attacking man (trying to get rid of him) by causing havoc upon him. There is historical and modern proof that this may be so.

It is interesting that parapsychologists have long concluded that the paralysis that contactees experience is a contributing cause; that the entity may materialize by utilizing energy from the percipient himself.

John Keel has in his files hundreds of cases, some of which have now been investigated by qualified psychiatrists, in which young men and women obsessed with the UFO phenomenon have suffered frightening visits from apparitions, followed up by mysterious black Cadillacs which appeared and disappeared suddenly, and have been terrified into up their pursuit of the UFOs. The phenomenon is again reflective in nature; the more frightened the victim becomes, the more the manifestations are escalated. Think about it.

The Other Side of the Coin

There is a balance in nature, and there also seems to be a balance in the UFO picture. People have actually died after exposure to the gamma and UV rays from UFOs. But other people have actually had their ailments cured by similar rays. Occult literature is filled with accounts of this type.

Except for those who might be specially constructed for incubus-succubus activities, it does appear that our "angels" and "spacemen" come from a world, in many cases, with sex -- and very probably, a world without an organized society; a world in which each individual is merely a unit in the whole and is totally controlled by the collective intelligence or energy mass of that whole. In other words, these beings, or some of them anyway, have no free will. They are slaves of a very high order. Often they try to convey this to percipients with their statements, "We are One," "We are in bondage."

We face a great task in trying to isolate the UFO phenomenon from the larger and more important "big picture," the overall situation of which the UFOs are merely a small part.

Elemental beings are another aspect of the world we live in. Children see them more than adults, perhaps for the reasons described before. Historical records certainly indicate that the little people have always existed all over this planet; that they possess the power of flight, the power of invisibility, and, to

varying degrees, the power to dominate and control the human mind. Accounts of little humanoids with supernatural powers can be found in almost every culture.

The manifestations have remained the same throughout history. Only our interpretations of those events have changed. It brought the birth of Spiritualism, which was in its heyday in the 1850s and 1860s, and was just another form of communication between the ultraterrestrials and ourselves.

UFO flaps also parallel outbreaks of poltergeist cases. It all ties in together.

Assuming that each discovered historical report represents a larger number of unpublished or undiscovered reports, just as today's UFO reports represent on the average 250 unreported or unpublished sightings, we can conclude that a flap condition existed, for example, in the years 1820, 1834, 1844, 1846, and 1849. We also find that there was an outbreak of poltergeists in 1835, 1846, and 1849.

As the 19th century progressed, reporting improved, and we are able to make more precise correlations. A UFO flap took place in 1850, and there was also a series of poltergeist cases. A larger poltergeist outbreak occurred in 1867, following flaps in 1863-64. UFO activity became more intense beginning in 1870, and there were notable flaps in 1872, 1877, and 1879. The 1880s produced a major explosion of all kinds of phenomena, including the sudden disappearance of people. Poltergeist cases were in abundance in that decade, particularly in the big flap years of 1883 and 1885.

Astrophysicist Morris K. Jessup labeled the years 1877-87 the "Incredible Decade" after scouring astronomical journals of the period. Astronomers made some remarkable discoveries during those years. The previously unobserved satellites of Mars popped into view in 1877, new craters appeared on the moon, all kinds of strange objects flitted around the upper atmosphere.

The trance phenomenon deserves extensive study because so many aspects of it are directly related to the contactee phenomenon. In both, you will find the same contradictions. There seem to be both good and evil forces at work. The good guys latch onto people with particularly receptive minds and turn them into trance mediums and the bad guys use the same methods to tamper with the minds of contactees and even to commit murder indirectly. Since incidents of these types can be traced throughout history, it seems probable that these forces have always been here on this planet. do the ultraterrestrials really care about us? There is much evidence to suggest that they don't. They care only to the extent that we can fulfill our enigmatic use to them.

There have been innumerable psychic hoaxes for the past 150 years, and many of these parallel the UFO hoaxes. In ufology we have to contend with the teenager's hot air balloon, and in psychic phenomenon we have to worry about youngsters firing rocks at houses. There are, however, more UFO sightings than there are

plastic balloons, and more poltergeists dumping rocks in living rooms than there are wild-eyed youngsters with slingshots. There are also more ultraterrestrial entities than either the occultists or the UFO researchers can dream of.

Giant winged beings, usually described as headless, are an integral part of the UFO phenomenon. Winged human forms have been seen flying over many areas of the world. John A. Keel wrote a book called the "Mothman Prophecies" and Gray Barker a book called "The Silver Bridge" that go into some detail. They are usually described as having blazing red eyes set deep in their shoulders.

On May 13, 1917, three girls in Portugal were in the meadows of a place called Cova da Iria outside of Fatima, Portugal, when they saw a flash of light in the clear sky. They ran for shelter under a tree, thinking that was lightning. When they reached the tree, they stopped in amazement, for there hovering just above a 3-foot evergreen nearby, a brilliant globe of light hung suspended.

Within this globe there was an entity garbed in a luminous white robe with a face of light which dazzled and hurt the eyes.

The figure stated that it was from heaven, and asked the girls to come there on the 13th day, for six months in succession. On October 13, 1917, an estimated 70,000 people had gathered at the site. Suddenly the crowd screamed, for something came through the clouds: a huge silver disk which rotated rapidly as it descended towards the crowd. It seemed to change color, going through the spectrum. These gyrations continued for ten minutes. Miles from there, others were also watching the same object.

The incident at Fatima was obviously a carefully planned and deliberately executed demonstration. The major prophecies of Fatima had been written down and sealed in an envelope, and turned over to the Vatican. They were supposed to be revealed to the world in 1960. The secret of Fatima? One Pope was murdered after only 30 days in office when the Vatican thought he would reveal it. It is said to be a prediction of the end of the world. The demonstration was therefore a failure as far as the ultraterrestrials were concerned. Such demos proved highly effective in Biblical times, but times were changing and new methods were called for.

A similar event such as Fatima took place in Garabandal, Germany, on July 2, 1961. Even more startling, on the entity's right side they could see "a square of red fire framing a triangle with an eye and some writing. The lettering was in an old Oriental script." The Third Eye. Haven't we heard of that before?

Remember the Nation of the Third Eye -- the MIB. etc?

ADDENDUM BY THE AUTHOR

Gravitational Propulsion

Well, I have gotten this far in explaining some things to you. I might as well turn to my favorite subject of all -- gravitational propulsion. The best place to start is with the efforts of a personal acquaintance of mine who had the good fortune to meet in England -- Mr. J. R. Searl. His investigations into gravitational propulsion have proven to be quite revealing -- he's done it, and I want to tell you about it.

In 1949, he was employed by the Midlands Board as an electronic fitter. He was very enthusiastic about the subject of electricity, though he had no formal education on the subject other than was required by his job. Unhindered by conventional ideas about electricity, he carried out his own investigation into the subject. During work on electrical motors and generators, he noticed that a small electromotive force (EMF) was produced by the spinning metal parts -- the negative toward the outside and the positive toward the rotational axis.

In 1950, he experimented with rotating slip rings and measured a small EMF on a conventional meter. He also noticed that when the rings were spinning freely and no electrical current was taken, his hair bristled. His conclusions were that free electrons in the metal were spun out by centrifugal force being produced by the static field in the metal. He then decided to build a generator on the same principle.

It had a segmented rotor disc, passing through electromagnets at its periphery. The electromagnets were energized from the rotor, and were intended to boost the EMF.

By 1952, the first generator had been constructed and was about three feet in diameter. It was tested in the open by Searl and a friend. The armature was set in motion by a small engine. The device produced the expected electrical power, but at an unexpectedly high potential. At relatively low armature speeds a potential of the order of 10^5 volts was produced, as indicated by static effects on nearby objects.

The really unexpected then occurred. While still speeding up, the generator lifted and rose to a height of about 50 feet above the ground, breaking the union between itself and the engine. Here it stayed for a while, still speeding up and surrounding itself with a pink glow. This indicated ionization of air at a much reduced pressure of about 10^{-3} mm Hg. More interesting was the side effect, causing local radio receivers to go on by themselves. Finally, the whole generator accelerated at a fantastic rate and is thought to have gone off into space.

Since that day, Searl and others have made some ten or more small flying craft, some of which have been similarly lost, and have developed a form of control. Larger craft have been built -- some 12 feet and two 30 feet in diameter.

Once the machine has passed a certain threshold of potential voltage, the energy output exceeds the input. The energy output seems to be virtually limitless. We made some measurements when I was there, and as far as we could see, the estimated output is somewhere in the vicinity of 10^{13} to 10^{15} watts. Above what appears to be the threshold potential, some 10^{13} volts, the

generator and attached parts become inertia-free. There is also some "matter snatch" upon acceleration away from the ground, since it tends to take a little "turf" with it when it goes.

Analyzing what is happening is fairly easy. What the generator is doing is placing a "stress" on the ambient space around it. The space breaks down to provide the magnetism to relieve the stress, but the energy by-product is absorbed by the generator, which reinforces the field.

It should be noted at this point that only a very small amount of space fabric passes through the craft and an even smaller amount is converted for energy. However, I have noticed that small changes in etheric forces lead to large physical effects. It was aptly demonstrated and I was impressed.

Recently, Mr. Searl had (1987) a brush with authorities, when he began simply generating his own power for his own house. Now he doesn't have a very large house, but the Utility Board didn't like the fact that they had lost their monopoly. Now he lives in Birmingham under an assumed name. Simple, eh?
